Welcome to Crandell CAMPGROUND

Located along the Red Rock Parkway in the scenic Blakiston Valley, this campground is set in a pleasant montane forest. It offers 129 unserviced sites, flush toilets, piped water, kitchen shelters, some fire rings and firewood, food storage, recycling bins, and a dump station. While no showers are available here, registered campers can use showers in Townsite Campground.

What you do affects wildlife and other campers' experience.

Crandell Campground is popular with those campers who like their campsites more sheltered and removed from town. Crandell Lake is a short 2 km hike from the campground.

Ask about our Tipi camping experience.

Bears and other wildlife live in the area, commonly wander through the campground, and are attracted to food odours. Our Bare Campsite Program is an important part of your experience.

- Please keep a clean campsite; read the brochure entitled *The "Bare" Campsite Program*.
- Place garbage in bins.
- Avoid cooking inside tents and tent trailers.
- All food supplies, including coolers, must be stored in your vehicles or in food storage lockers, located throughout the campground.

Pets may jeopardize your safety and theirs if they provoke or attract wildlife. Some deer may attack without provocation, and can seriously injure or kill a dog. Please report any incident to park staff.

Please clean up after your pet and don't leave their food outside to attract wildlife.

For the safety of both pets and wildlife, pets must be leashed and never left unattended.
